```

Screenshot of LabTimer app installed on ios

## Android Studio Emulator Screenshot in Landscape mode

## Ipadian Emulator Screenshot in landscape mode

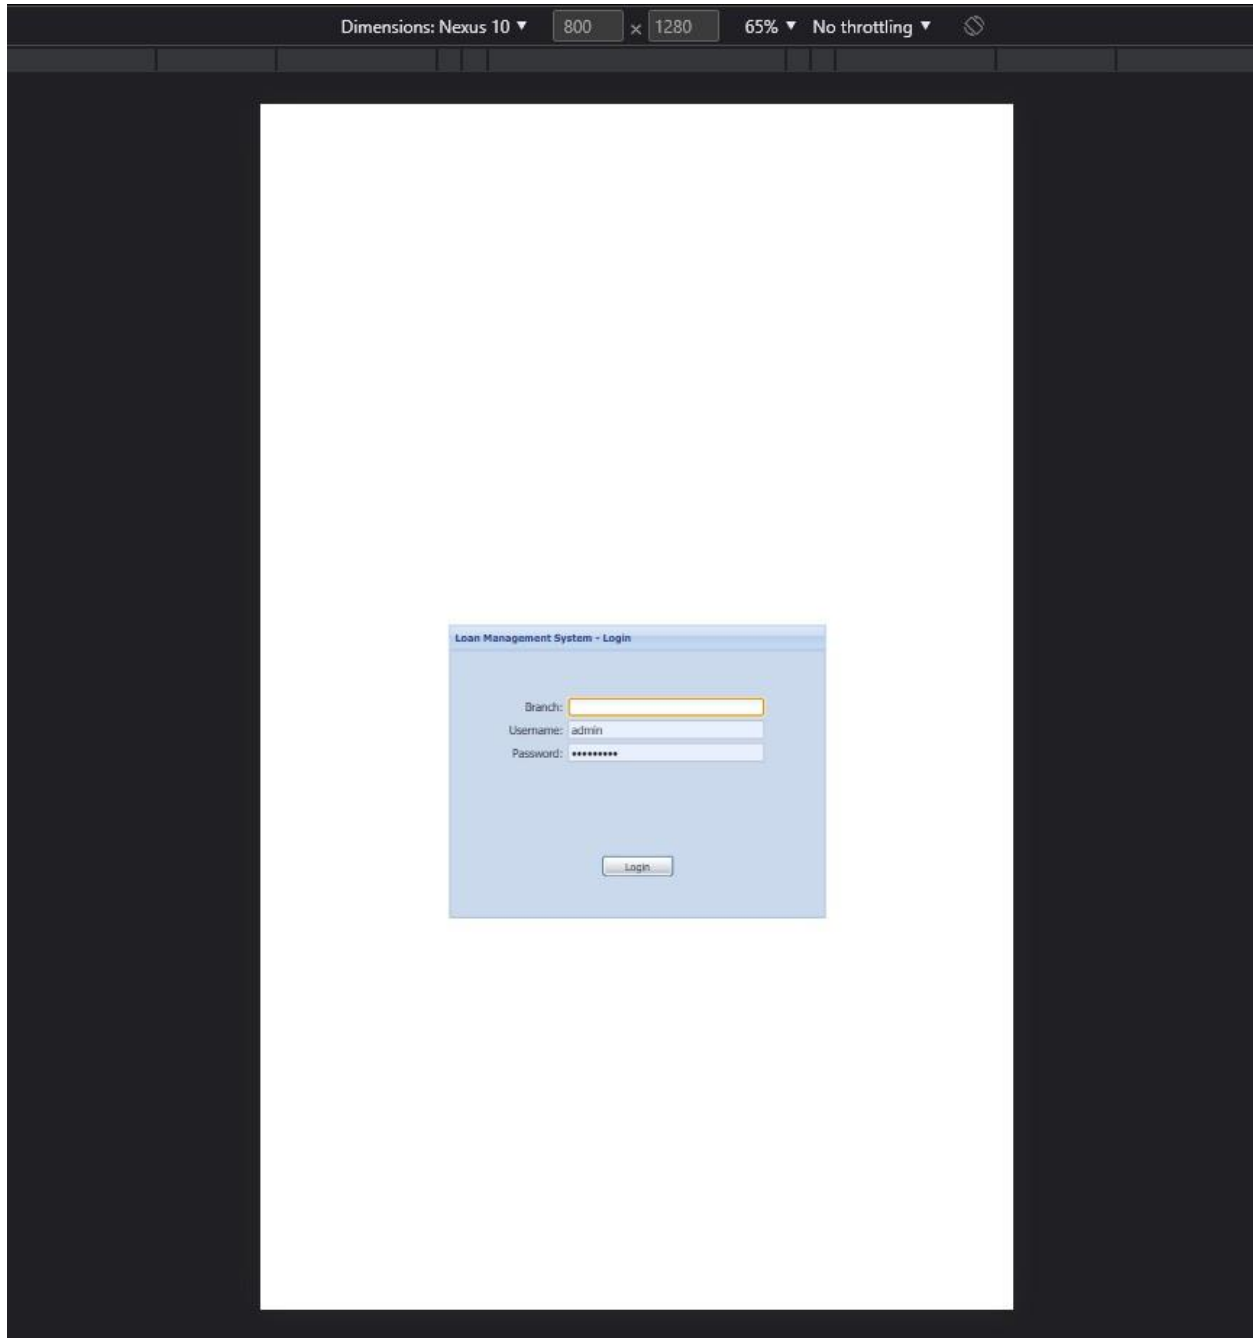

## Google Chrome Emulator

Testings such as multi-touch sensors are impossible to conduct without actually testing on real devices themselves, which is why we cannot test them. However, the screenshots are added on the document to show how they would be displayed on those devices.

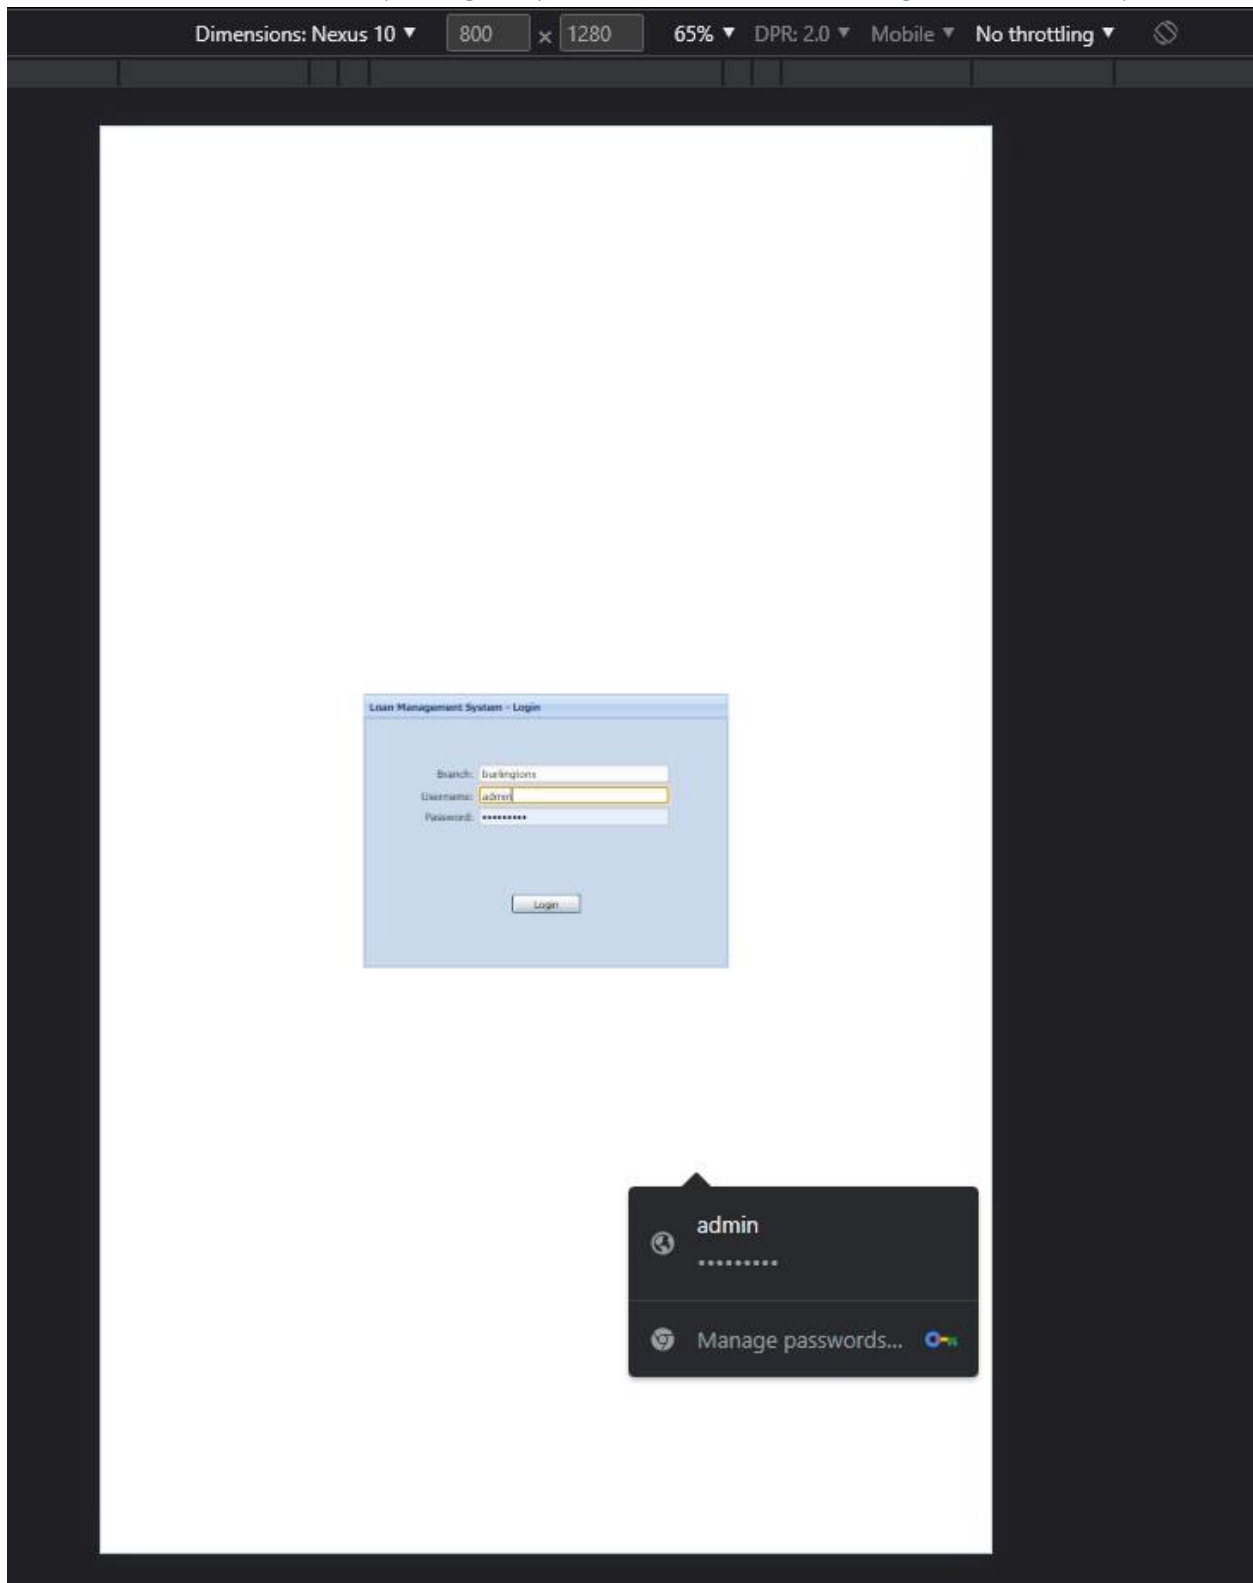

### Google Nexus mode Testing:

- a. Enable touch emulation

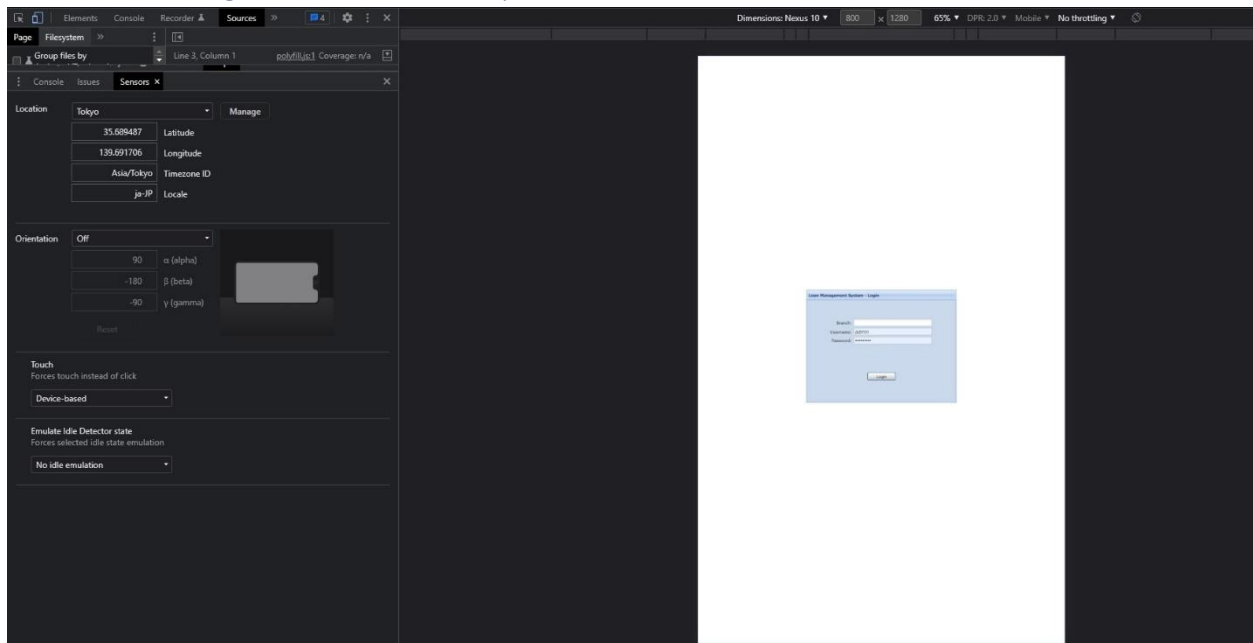

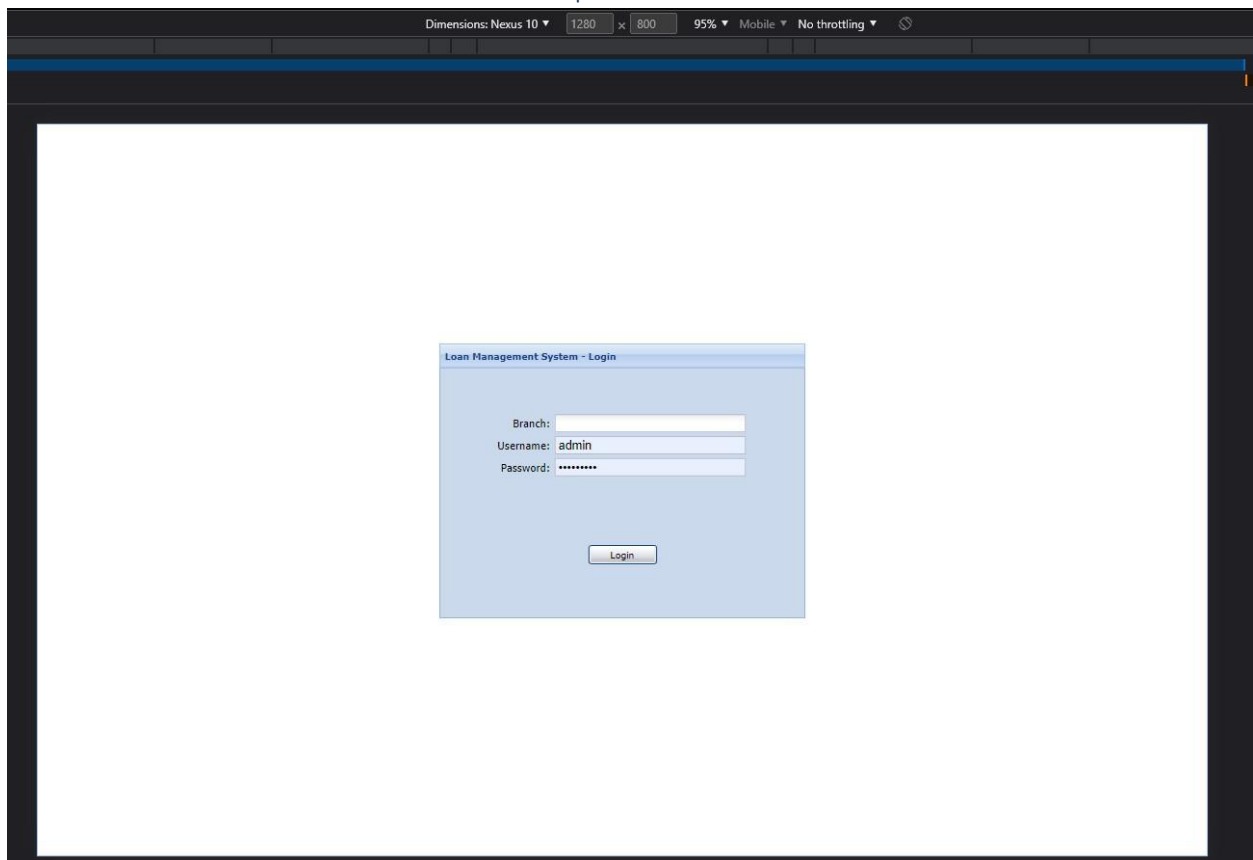

b. Simulate multi-touch (testing not possible to conduct-no change in screenshots)

## c. Override geolocation data: Tokyo

## d. Simulate device orientation: Landscape

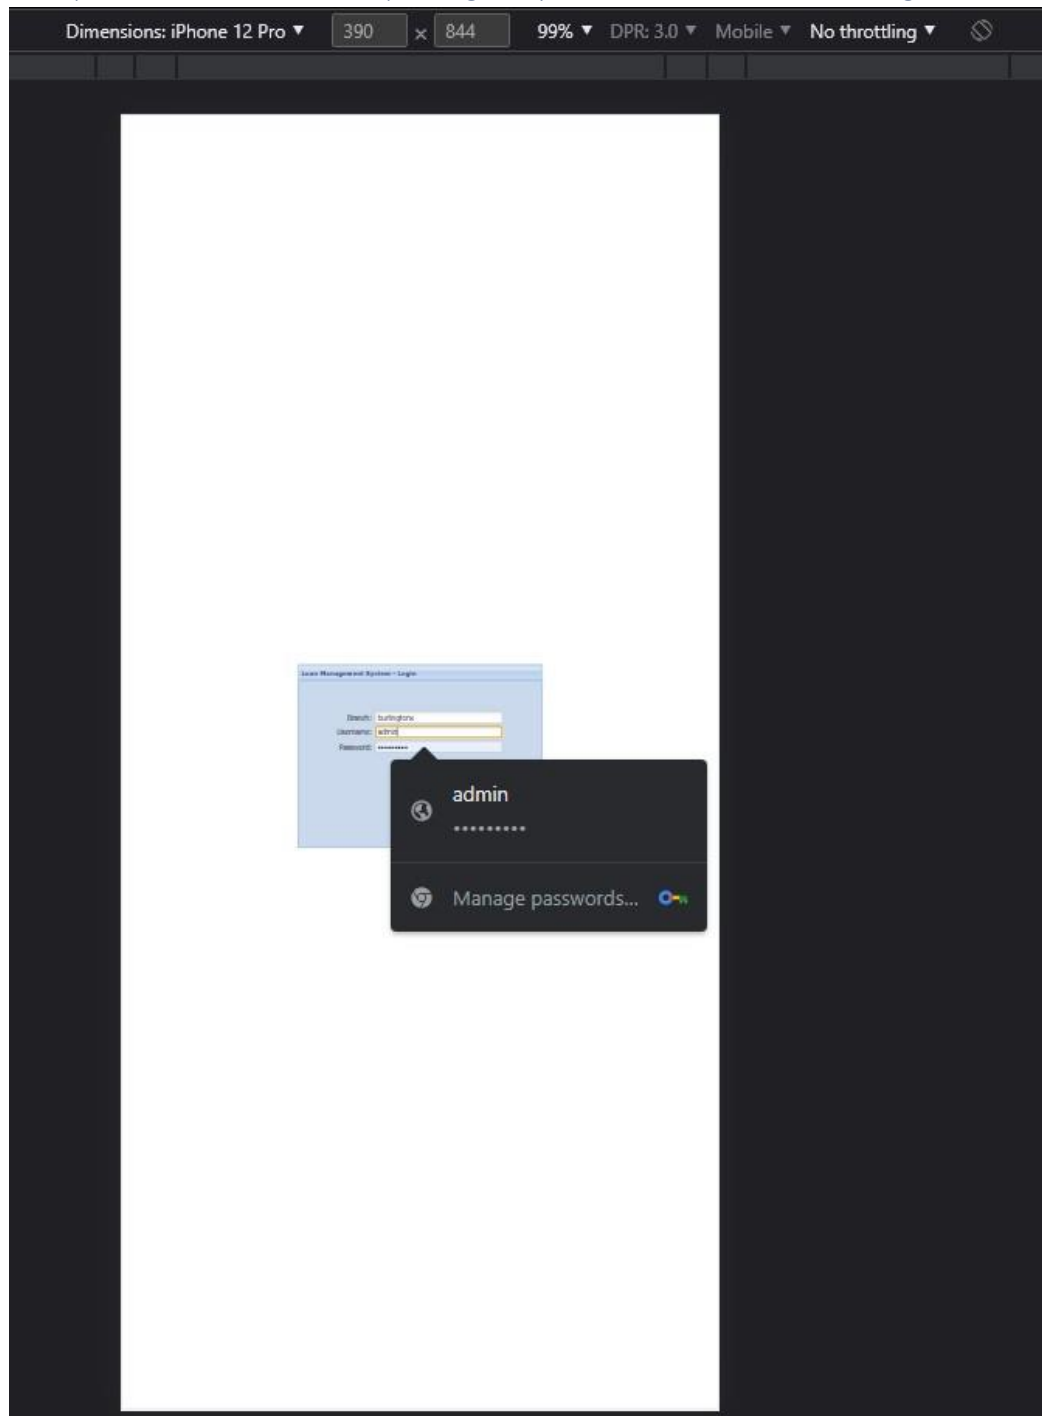

## iPhone mode Testing

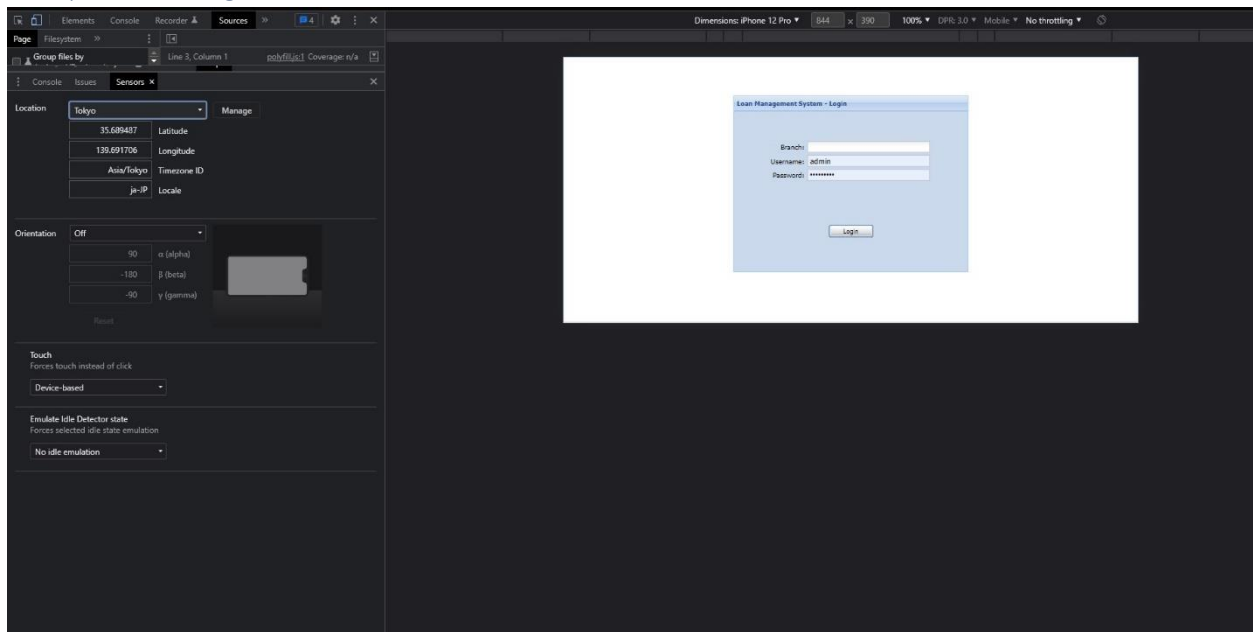

### a) Enable touch emulation

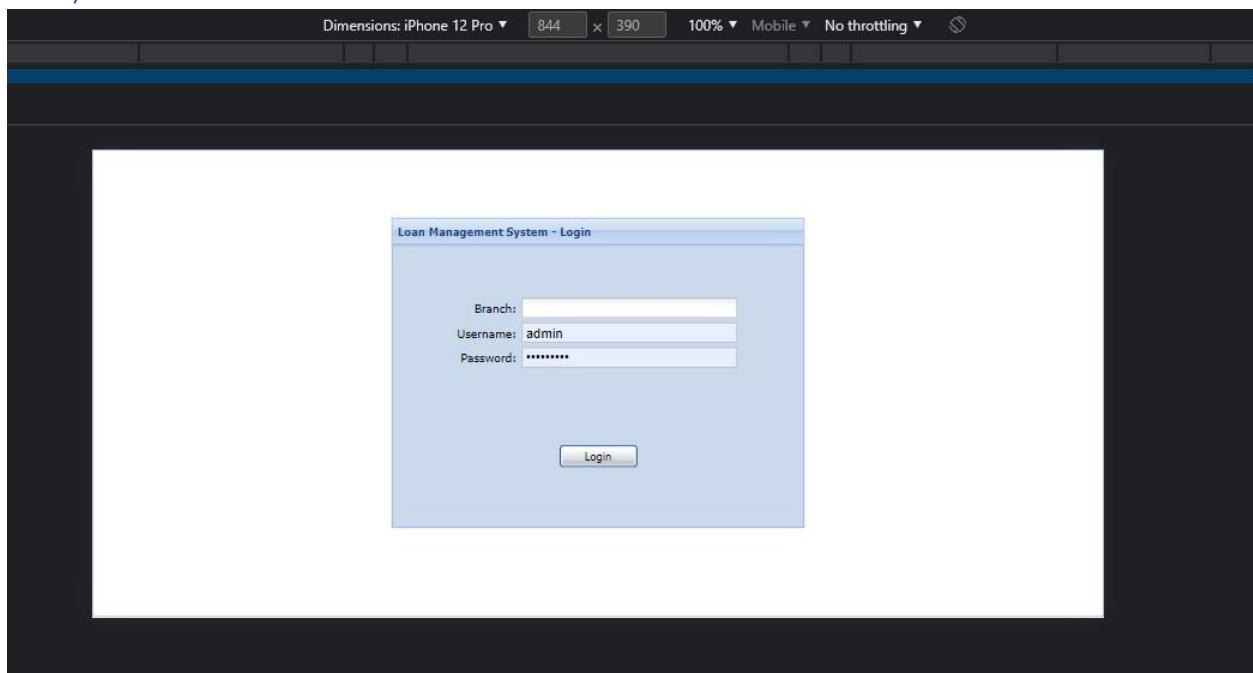

b) Simulate multi-touch (testing not possible to conduct-no change in screenshots)

## c) Override geolocation data

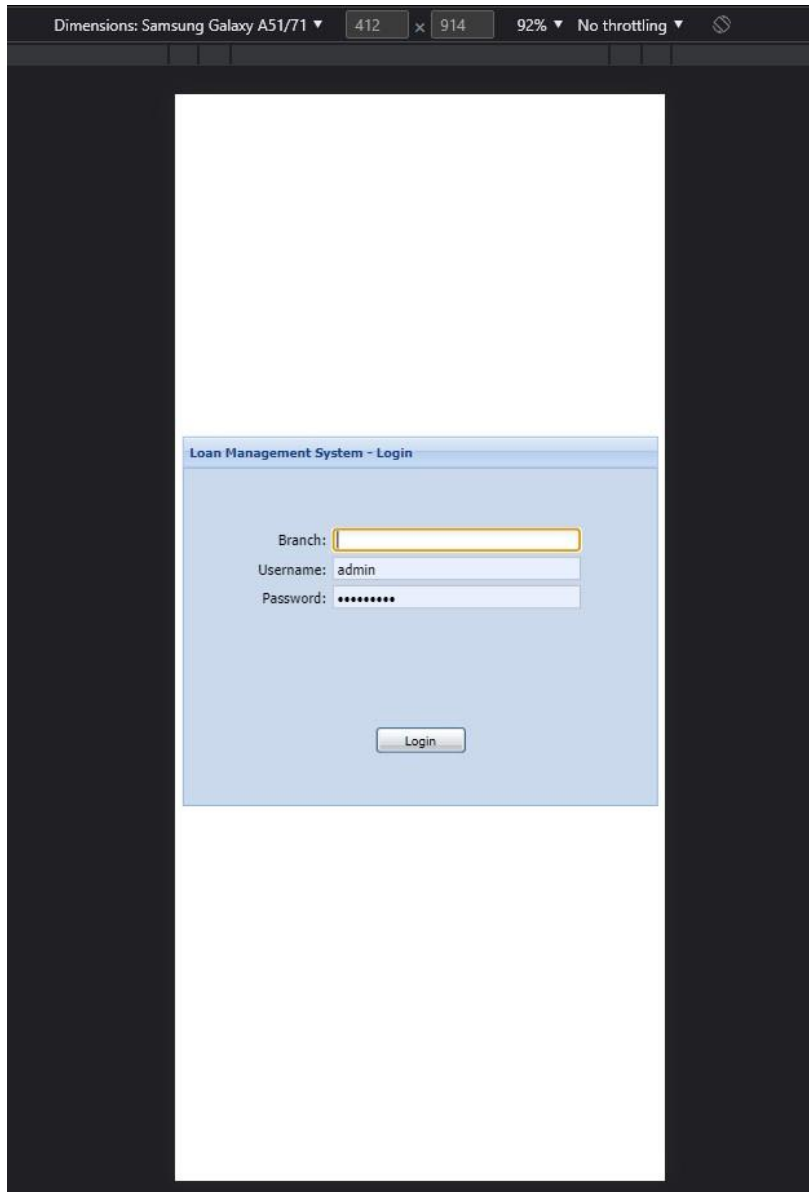

## d) Simulate device orientation

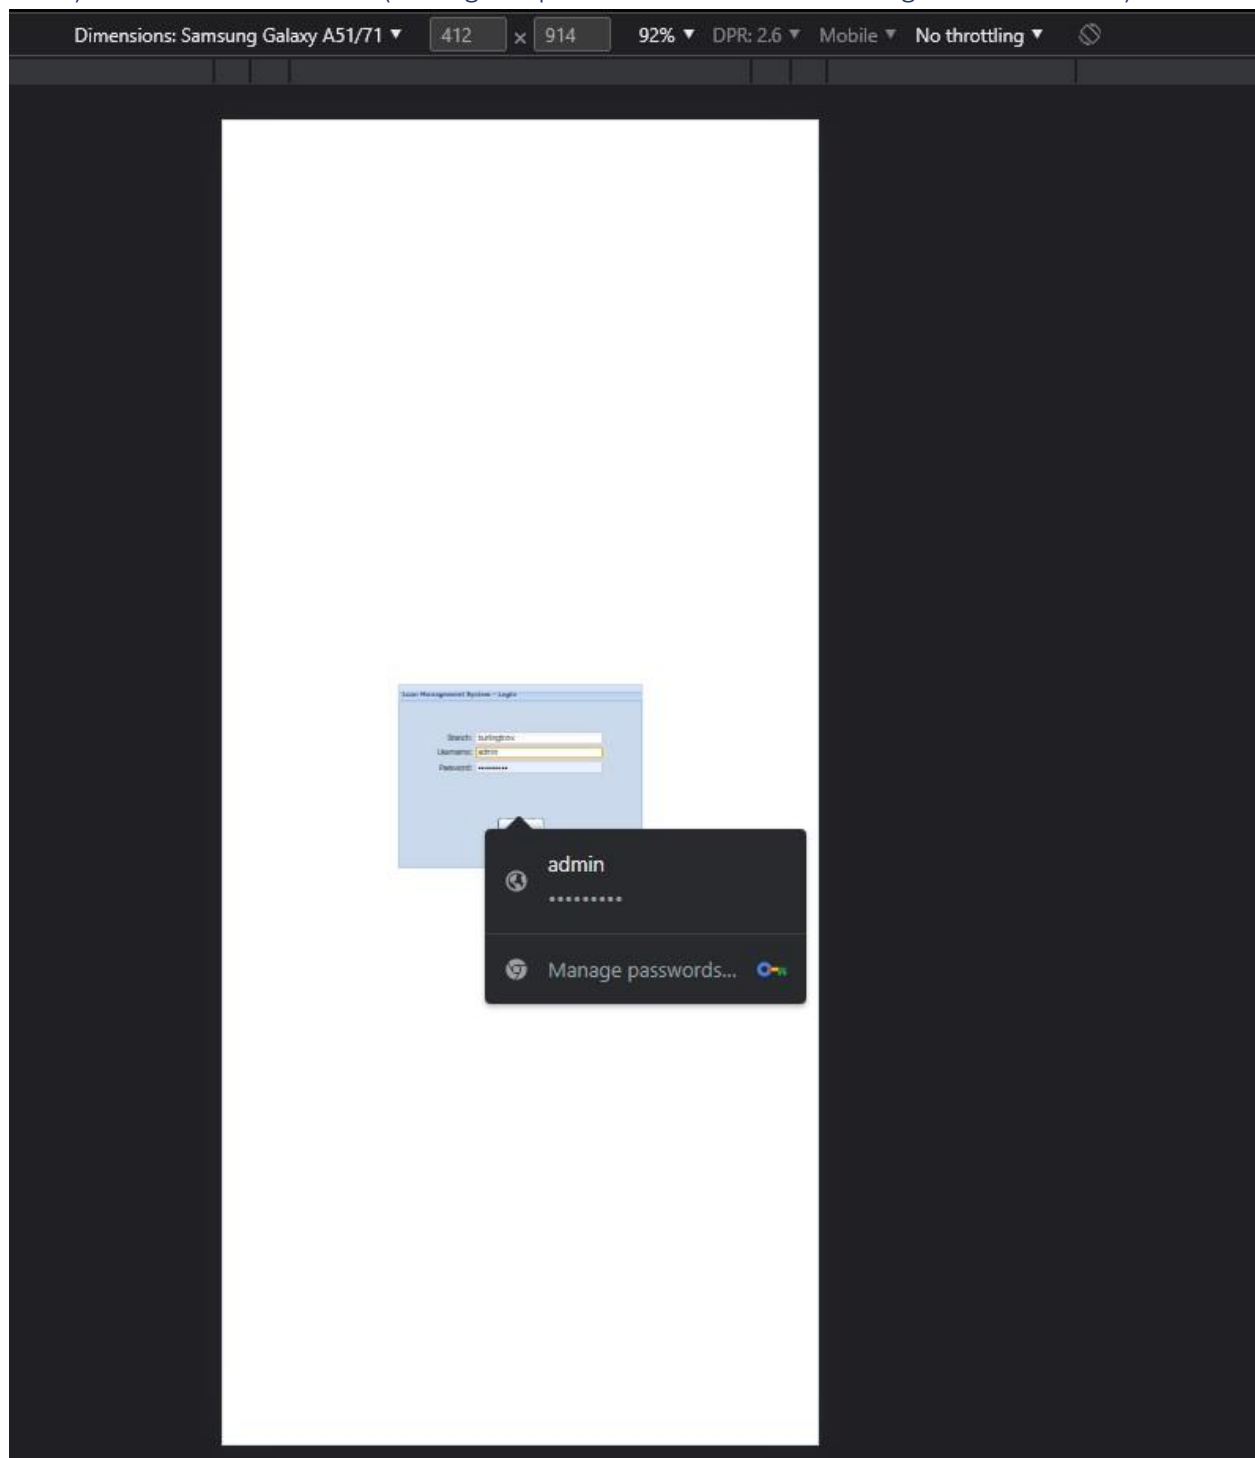

## Samsung mode Testing

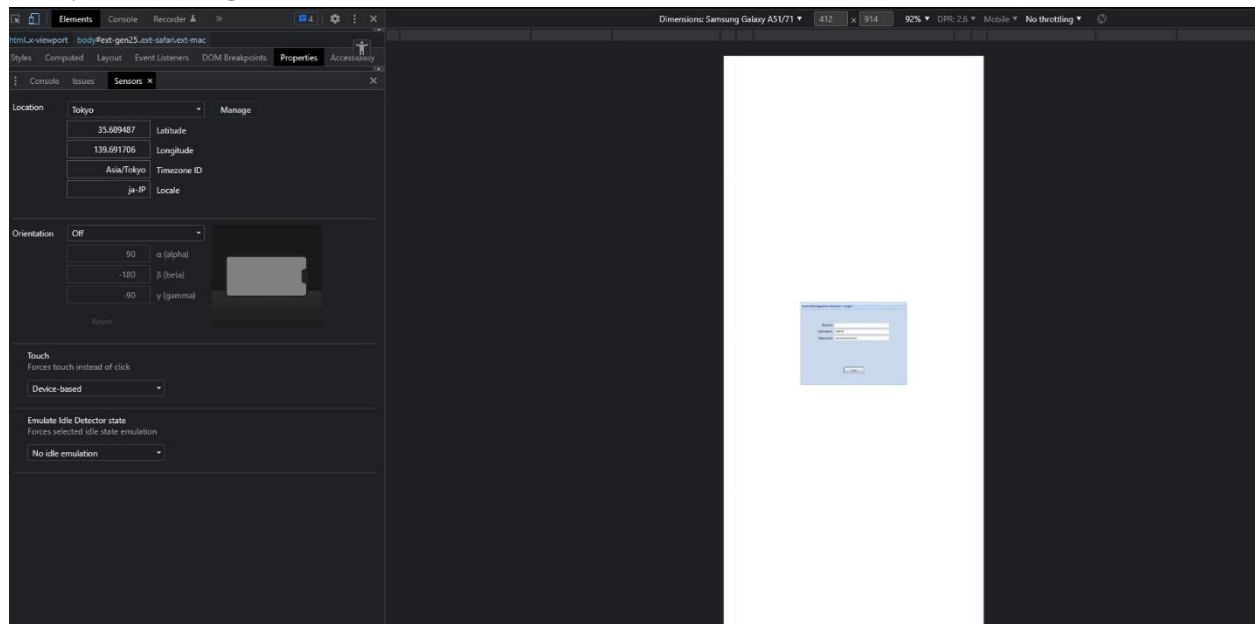

### a) Enable touch emulation

b) Simulate multi-touch (testing not possible to conduct-no change in screenshots)

## c) Override geolocation data

## d) Simulate device orientation
